

Private Health insurance & Medicare items for speech pathology:

General Practitioner can make a referral for speech pathology sessions under the EPC (Enhanced Primary Care Plan) or the Chronic disease management Plan ,for children and adults with chronic care needs. Medicare rebate is available for 5 speech therapy sessions per calendar year.

rebates may also be claimed from your private health provider, depending on the extras covered by the health fund. To find out more about the rebates, you may contact the private health provider.

Medicare and private health insurance rebates may not be claimed for the same speech therapy session.

Rebates for Medicare and private health insurance can be claimed via the HICAPS at the speech Clinic.
